

Pulsar Analytics - Billing and Plans

Updated May 2026

1. Plan tiers

Pulsar offers four plan tiers:

Starter: free, up to 3 members, 1 GB data, 30-day history.

Team: USD 49 per member per month, unlimited dashboards, 1-year history, email support.

Business: USD 99 per member per month, SSO, audit log 365 days, SLA 99.9 percent, priority support.

Enterprise: custom pricing, custom roles, dedicated infra, SLA 99.99 percent, dedicated CSM.

2. Invoices

Invoices are issued on the first of each month for the previous month. Download them from Workspace > Billing > Invoices.

Each invoice lists every line item, the unit price, and the applicable tax for your billing address.

3. Payment methods

Pulsar accepts Visa, Mastercard, American Express, and ACH direct debit. Enterprise customers can pay by wire transfer with net-30 terms. Add a payment method from Workspace > Billing > Payment method.

4. Failed payments and dunning

If a charge fails, Pulsar retries the card on day 3 and day 7, sending an email to the billing contact each time. On day 14 the workspace is downgraded to read-only; on day 30 the workspace is suspended. Update the card to restore access immediately.

5. Cancellation

Cancel anytime from Workspace > Billing > Plan. The workspace remains active until the end of the current billing period. After cancellation, data is retained for 30 days and then permanently deleted. Download an export before cancelling if you need it.
